## Zamboanga Del Norte's 2023 Commercial Fisheries Overview

# 24,976.93 MT

## VOLUME OF PRODUCTION

### TOP 4 SPECIES (IN METRIC TONS)

# 1

6,879.61  
BALI SARDINELLA (Tamban)

# 2

6,379.50  
ROUNDSCAD (Sigarilyo)

# 3

4,588.07  
BIG-EYED SCAD (Mudlong)

# 4

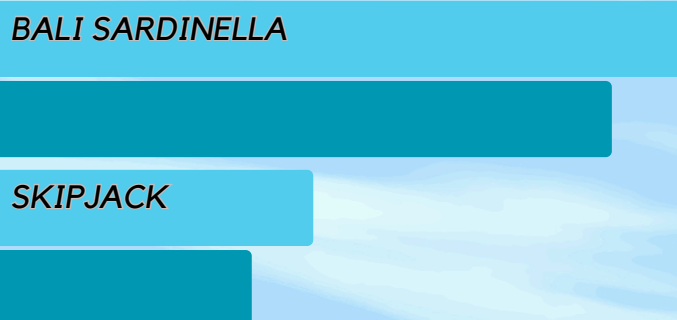

2,824.62  
SKIPJACK (Sambagon)

# 0.24%

A decrease in the total volume of production in the commercial fisheries sub-sector of the province as recorded from the CY 2022 at 25,037.41 MT

2022 2023

The decline of Bali Sardinella and Skipjack underscores the urgent need for sustainable fishing practices. From 2022 to 2023, Bali Sardinella production decreased from 7,700.75 metric tons, while Skipjack plummeted from 3,517.22 metric tons. This highlights the importance of responsible stewardship to protect marine resources.
