

Did You Know?

Zamboanga Peninsula recorded 28,783 total deaths by usual residence of mother in 2021. There were 105 Maternal Deaths, 467 Infant Deaths, and 163 fetal deaths registered in the entire Region IX.

Maternal Mortality refers to the death of a woman while pregnant or within 42 days of termination of pregnancy, irrespective of the duration and the site of the pregnancy, from any cause related to or aggravated by the pregnancy or its management, but not from accidental or incidental causes.

105
maternal deaths

467
infant deaths

Infant Mortality refers to deaths of infants under one year of age.

Fetal Death refers to death prior to the complete expulsion or extraction of a product of conception from its mother, irrespective of the duration of pregnancy; the death is indicated by the fact that after such separation, the fetus does not breathe or show any other evidence of life, such as beating of the heart, pulsation of the umbilical cord, and definite movement of voluntary muscles.
